

# 2025 NFL Picks

I've decided to track three sets of picks throughout the season. Each week I'll be looking at the straight-up favorites (per Sporting News) and the higher power-ranked team (per NFL.com). Sometime before the weekly games start I'll make a random pick for each game (shuffling cards with team names and drawing from the top). I'm doing this just because I'm curious about how it will turn out. Obviously, results will not be indicative of what might happen in following weeks or seasons. So let's get started!

For week 1, there are only two differences between Favorite and Power.
